Dear Adrienne,

Thank you for a wonderful job on the article in *Savoir* and the seven articles on me in the Brentwood Media Publications. Your photographer did a wonderful job photographing me for the cover of the magazine, and the articles were insightful, informative and well written.

You are such a talented and inspiring person -near and dear to my own heart. You certainly are a go-getter, and have done such a tremendous job promoting my artwork and my organization.

I have had the luxury of knowing and working with some of the most powerful individuals in the world, as well as influential people here in Hollywood, and I must say that your ability and talent is certainly noteworthy.

Best Wishes,
