A Chip Off the Old Block

The Craftsman CompuCarve Computer-Controlled Compact Woodworking Machine is perfect for RC airplane hobbyists, kitplane builders and model airplane collectors who would rather spend more time testing their creations outdoors rather than staying indoors with an endless pile of wood still to be cut by hand. This compact three-dimensional woodcutting device allows any craftsman to make a complete project without creating a mess or cluttering their workspace. It's great for RC airplane hobbyists, kitplane builders, and model airplane collectors who would rather spend more time testing out their creations outdoors rather than sitting indoors with an endless pile of wood still to be cut by hand. The machine allows you to create your designs on your computer, save it to a memory card and plug it into the machine—and presto, the project is done in a fraction of the time. The machine is also portable, making it easy to take your project to the field or workshop. Sip & Go

With the Hammerschlemmer Commuter Cup, you don't have to worry about spilling your beverage all over the interior of your plane again. It's designed to fit snugly in the cup holder, and the spout is easilyconverted to a straw, so you can enjoy your drink without spilling. The cup is also made of durable materials, so it won't break or chip even when dropped, and it's dishwasher-safe for easy cleaning. The Hammerschlemmer Commuter Cup is perfect for RC airplane hobbyists, kitplane builders, and model airplane collectors who would rather spend more time testing out their creations outdoors rather than sitting indoors with an endless pile of wood still to be cut by hand. Pack It In

For frequent flyers, the newly redesigned Sporty's Flight Gear Bags may be something to add to the collection of must-have items on your checklist. The set includes five different bags designed with a specific type of pilot in mind. They all feature stronger, more water-resistant fabric, ultra-strong metal hardware, and easy-to-use zippers. The set also includes a backpack, duffel bag, and carry-on bag, so you can bring as many items as you need on your trip. The Sporty's Flight Gear Bags are perfect for RC airplane hobbyists, kitplane builders, and model airplane collectors who would rather spend more time testing out their creations outdoors rather than sitting indoors with an endless pile of wood still to be cut by hand. A Fast Fix

Here's something portable and practical that any pilot can use. The Working Guy's Survival Kit Prevents minor mishaps with 20 must-have grooming and personal care products arranged inside a sleek aluminum attaché case. It includes necessities such as a toothbrush, dental floss and mints for oral hygiene; a nail clipper, deodorant and lint remover for personal grooming; and Static Guard, a mending kit and adhesive bandages for ‘emergencies’ that need on-the-spot fixes. It's a must-have for male professionals who are always on-the-go. $45, hammacher.com, 871.571.5995.

Know Your ABC's

Here's something all aviators will want to wear at all times: the Light Green Suunto Core Multifunction Watch that does more than just tell time. This watch combines a stopwatch, chronograph, alarm, timer, and a countdown. It also features an altimeter, barometer, and a compass, so you can always be prepared for any flying situation. Plus, it comes with a sleek, modern look, and is perfect for pilots who want to look good while keeping track of time. It's the complete timepiece for the hard-core flying enthusiast. $299, rei.com, 800.426.4840.

Store, Snap & Seal

For avid campers, fly-in enthusiasts or pilots who like to bring food on the plane, the Automatic Vacuum Fresh Box may just be the gizmo you need to store food and keep it fresh longer during your plane ride to fly-in fun. Its unique Vacupreserve function hermetically seals groceries and bread items at just the right pressure during a long trip. Just open the latch, store what you need, close the lid, and the automatic vacuum seals the deal.
