Into the Night With Nick Jagger

When I'm in the Western Seaboard, Nick Jagger, son of the legendary Rolling Stones frontman Mick Jagger, always hits me with a new wave of self-confidence, but I don't play him. He's like the most gifted teenager I've ever met. His parents are so proud of him, but he doesn't let it show. He's still just a kid, but he's learning to enjoy it. He's a great singer, and his parents are so proud of him.

I met Nick when he was still in his teens. He and his friends were out on the street, just hanging out and having a good time. We got talking and I was impressed by his voice. He was just starting to record his first album, and I was anxious to hear it. I asked him if we could do a session together, and he was happy to oblige. We spent a few days in the studio, working on his first album. It was a real pleasure to work with him. He was just a kid, but he had a lot of talent.

I can't wait to see what Nick does next. He's just a kid, but he has a lot of talent. I'm sure he'll do great things in the future.
