Upon entering **Dr. Mark Youssef's YOUUnique Medical spa**, a feeling of calm and serenity filtrates the air. The staff is exceptionally professional making you feel right at home. Having been voted as Best of the Best is no coincidence: celebrities and dignitaries are frequent visitors of this luminous full service beauty spa.

In getting ready for the Oscars the lime light is on the oxygen facial: Intraceutical Rejuvenation in just 45 minutes using Vitamins A, C, and E combined with green tea and Hyaluronic Acid, added to oxygen, literally lifts your face. The results are immediately visible and unbelievable. No wonder Madonna swears by it and keeps an oxygen machine in all of her homes. Walk in saggy and walk out feeling rejuvenated. Dr. Mark Youssef is a Board Certified Surgeon and has been featured in numerous magazines and television shows, such as Star, In Touch and Access Hollywood. The spa provides a variety of beauty and surgical services.
