

May 19, 2002

To Whom It May Concern:

Adrienne Papp served as Director of Business Development for AK Techotel from July 1989 to August 1991.

Her professionalism, productivity and sheer enthusiasm was exemplary. Specifically, she successfully launched our software product internationally securing leading customers throughout Europe. Her marketing efforts resulted in recurring international sales in that we are now the leading supplier of PMS Software in Europe. I heartily endorse and recommend Ms Papp in connection with positions requiring high level business development as sales challenges.

Sincerely yours,

Klaus Ahrenkilde
Chairman and President
