#### Valuable Rewards:

- More potent and evolved than cash, CREDITZ has significant value and added benefits. Unlike cash, it's secure and may be cancelled or reissued if lost.
- CREDITZ is in digital form, never in physical currency, until it reaches the merchant's account.
- CREDITZ system enables consumers to transfer funds (for a minimal fee) from their bank account to their CREDITZ account, and be paid CREDITZ by merchants/manufacturers when purchasing with CREDITZ, cash, check, credit or debit.

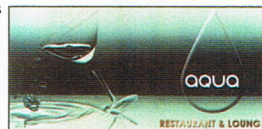

The system is scalable and can aggregate and monetize all loyalty and reward programs, permitting pooling of CREDITZ within families and groups and consumers can convert points and miles, and all manners of *reward programs* into digital currency, in real-time with the lowest devaluation, and then spend this digital currency anywhere—

a compelling proposition to consumers and program operators, who embrace the conversion because of the significant reduction in overhead and contingent liabilities.

#### CREDITZ® is no longer just a vision...

The future is here and the Company is in the process of enrolling merchants, manufacturers and content providers to accept and pay CREDITZ to their customers and constituents.

CREDITZ is pleased to announce that it has added the **AQUA Lounge**, in Beverly Hills, to its roster of merchants who accept and pay CREDITZ.
