

Hollywood Smiling

We are so lucky in this part of Southern California to have some of the finest cosmetic services anywhere in the world. I have personal experience with Dr. Eric Fugier in Beverly Hills, who is an expert in creating the most beautiful smiles possible. It did not come as a surprise that one of the premier channels from French Television did a full documentary on the importance of smiles.

If your teeth are not as beautiful as they should be, Dr. Fugier can work miracles and give you the kind of big, “Hollywood” smile that everyone finds attractive. He cannot make you into Julia Roberts, but he can give you the smile you want. The length to which we are willing to go to have the camera perfect look in the capital of the film industry deserves a whole new chapter in the history books. And, if you want to look your best, but are afraid of dental work, this well recognized celebrity doctor also makes sure that all treatments are comfortable and pain free.

But Dr. Fugier does many kinds of restorative dentistry, ensuring that beauty is NOT the only objective, but health is important too. He also offers a **“Smile Redesign Consultation”** to show you how beautiful your smile can be with computer imaging technology, and also does a complete oral and diagnostic evaluation so you fully understand the improvements he can offer.

Dr. Fugier also does porcelain and composite laminate “veneers,” which were invented by his mentor, the father of “Esthetic Dentistry,” Dr. Charles Pincus and are not at all as popular outside of Hollywood as to those living here. Even if you have the perfect look, these services can make your teeth even brighter.

If you want that million-dollar smile but are nervous about treatments, this good doctor creates an atmosphere that includes aromatherapy and audio stimulation for complete relaxation. And everything is fully discussed before a treatment begins, so you know exactly what to expect.

A perfect smile is something that can change your life. Not to mention your self-confidence, which you need a lot of here in Tinsel Town, the entertainment capital of the world.
